

REMARKS

The foregoing amendment is submitted under provisions under 37 C.F.R. 1.312, to correct an error in the designation of the loading station in claim 19. The claim relates to sensing whether or not a process disc that was in the retractable disc support tray had actually been picked up by the handler. The support tray in claim 17, the parent claim, was movable from a "disc loading position to a processing station". This was the movement of the tray. The last phrase of claim 19 deals with moving the tray to the processing station and back to its other position which is correctly called the loading station, and not the "unloading station" as erroneously listed in claim 19.

This change is only to ensure antecedent basis for the designation of the station to which the tray is moved from the processing station. No new matter has been added, no new search is required. The error was discovered on a final review of the claims prior to paying this Issue Fee. Entry of this amendment is respectfully requested.

The Director is authorized to charge any fee deficiency required by this paper or credit any overpayment to Deposit Account No. 23-1123.

Respectfully submitted,

WESTMAN, CHAMPLIN & KELLY, P.A.
